PART 3: HOURS OF WORK

3.1. General

- 3.1.1. The employer, through consultation with the relevant consultative committee, has the ability to agree to hours of work arrangements at the local level in accordance with award provisions.
- 3.1.2. The employer will provide access to and consult about hours of work arrangements consistent with award obligations.
- 3.1.3. Preparation for starting and finishing work including personal clean up will be in the employee's time. Activities required by the employer for the readiness to commence the performance of duties are to be treated as part of paid ordinary hours. If required, such activities will be agreed between the employer and the relevant consultative committee.

3.2. Averaging of Ordinary Hours of Work

- 3.2.1. Where agreed between the employer and employee, and subject to policy requirements, mechanisms will operate by which employees can agree to average ordinary hours of work over a cycle with differential daily and weekly hours, e.g. in a four week work cycle an employee may work 45 hours in one week and 30 hours the next week, provided that the total standard ordinary hours for the month are worked. Under this arrangement the agreed working hours for individual employees would be established in consultation between management and the employee. Normal overtime arrangements/penalty rates will only apply for the hours worked in excess of the agreed hours of duty.

3.3. Aggregated Hours

- 3.3.1. Where agreed between the employer and employee, and subject to policy requirements, an employee may work varied weekly hours provided that at the end of an agreed work cycle of 3 months or more the employee has worked the total ordinary hours for the work cycle.
- 3.3.2. This provision is designed to cater mainly for seasonal work or work units which have discernible peaks and troughs in workloads at different times of the year.
- 3.3.3. Overtime arrangements/penalty rates apply to work in excess of the agreed hours of duty.
- 3.3.4. This provision may be implemented by agreement between management and the majority of employees affected in the workplace.

3.4. Spread of Hours – Brisbane Central Business District

- 3.4.1. These provisions shall apply only to employees engaged under the *Queensland Public Service Officers and Other Employees Award – State 2015* where the employee's place of work, at daily commencing and finishing times, is within the Australian Bureau of Statistics Statistical Local Areas of "City – Remainder" and "City – Inner" within the Statistical Subdivision of "0501 – Inner Brisbane".
- 3.4.2. In recognition of the problems associated with increased traffic congestion into the Central Business District of Brisbane, the parties agree to a wider ordinary spread of hours of 6.00am to 7.00pm for full-time and part-time employees only.
- 3.4.3. The purpose of such an arrangement is to allow employees and supervisors to mutually agree to changes to existing commencing and finishing times in order that the employees can commence and/or finish their working hours outside the recognised peak times of 7.00am to 9.00am and 4.00pm to 6.00pm.

- 3.4.4. For the purposes of application of the Ministerial Directive relating to “Excess Travel Time” issued and amended in accordance with section 54 of the *Public Service Act 2008*, which only applies to employees subject to the *Queensland Public Service Officers and Other Employees Award – State 2015*, the ordinary spread of hours for the purposes of Part C (Excess Travel Time) shall be 6.00am to 7.00pm.
- 3.4.5. The parties affirm that the capacity for an individual employee to have an ordinary spread of hours of 6.00am to 7.00pm by mutual agreement under these provisions will not be used as the rationale to alter customer service delivery arrangements of entities affected by these provisions.
- 3.4.6. All other conditions contained in awards and Ministerial Directives (as amended) relating to overtime, meal breaks and meal allowances shall continue to apply.

3.5. Attendance at School Camps, Excursions and Functions

- 3.5.1. In circumstances where employees are required to attend school camps, school excursions or school functions, and are required to perform duty outside their normal hours of duty (including those occurring on weekends) they shall be entitled to accumulate additional hours as ADO time as outlined below. ADO time is accumulated on a time-for-time basis.
- a) Employees who are required to attend overnight school camps/excursions/functions will be automatically credited with the difference between their normal rostered duty hours and 15 hours per overnight stay;
 - b) The maximum credit per day will be 15 hours ADO time (e.g. If normal rostered duty is 6 hours per day, then on an overnight camp/excursion the employee will be entitled to an additional 9 hours in ADO time regardless of how many additional hours are worked);
 - c) When the relevant employee returns home from a school camp/excursion/function the entitlement for that day will be in accordance with 3.5.1(d);
 - d) Employees who are required to attend school camps/excursions (non-overnight stays) and perform duties outside normal rostered duty time will be entitled to claim ADO time up to the difference between their normal rostered duty hours and the hours worked, that is, the additional hours in excess of the normal rostered hours shall attract ADO credits.

3.6. ADO for Employees of the Department (excluding schools and School Education Facilities, and Employees Working a 38 Hour a Week Arrangement)

- 3.6.1. An employee is entitled to accrue a minimum of one ADO per Work Cycle. ADOs can only be accrued and taken with the supervisor’s approval.
- 3.6.2. A “Work Cycle” is defined as the 28 day work cycle.
- 3.6.3. Subject to the exceptions outlined below, the maximum ADO carry-over will be 36.25 hours at the end of each work cycle and ADO may be taken in blocks of no more than five consecutive days per work cycle.
- 3.6.4. The above ADO arrangements may be exceeded in the following circumstances:
- Local level agreement based on operational factors and needs; and
 - The employee’s annual leave balance does not exceed the maximum accumulation.
- 3.6.5. Notwithstanding the above, where there are minimum conditions prescribed in the *Queensland Public Service Officers and other Employees Award – State 2015* (as amended from time to time) that provide more favourable provisions relating to Organisational Hours of Work Arrangements, those minimum conditions shall apply and override the provisions contained herein.

3.7. Hours of Work Arrangements - Therapy Employees servicing Schools and Other Education Facilities, and School Support Staff and Employees of Other Educational Facilities Specifically:

- Business Managers;

3.8.14. Any ADO time rostered to be worked whilst on leave to claim workers' compensation must be credited to the employee's ADO balance. Provided that where the employee is subsequently absent on leave claiming workers' compensation during any agreed ADO days after being credited with ADO hours, the employee must be deemed to have taken those ADO days.

3.8.15. Where an employee has actually worked ADO hours and is subsequently absent on workers' compensation leave during any ADO days, the employee may take accumulated ADO hours at a time mutually convenient to the employee and the principal. No relief will be available in such circumstances.

29.5.4. Principles

- a) a clear management vision and a strategy for achieving world class performance must be articulated to all employees and client groups;
- b) employees and members of the school community are to be extensively consulted in the planning of change and able to participate in decision making processes which develop and implement alternative and innovative ways of enhancing service delivery;

- f) a willingness and ability to measure performance through benchmarking processes and a commitment to benchmark performance both internally and with external organisations.

29.5.5. Objectives

29.5.5.1. The parties agree that a Best Practice approach to work, management and service delivery should be directed at achieving the following objectives:

- a) pursuing a progressive path towards school-based management, within overarching principles, featuring integrated approaches with employees, students, parents and the wider school community, and accompanied by appropriate accountability mechanisms;
- b) developing flexible and adaptable learning and support structures and processes which deliver a quality education service throughout Queensland;

- iv. Effective consultative mechanisms which engender a culture of participative management;
- v. A commitment to continuous improvement in human resource management, including a focus on performance measurement;
- vi. Optimum use of technology.

29.5.7. Best Practice

- 29.5.7.1. Best Practice is a key feature of the Department's workplace reform agenda for schools.
- 29.5.7.2. The parties recognise that enterprise bargaining is a major vehicle, but not the only vehicle to progress Best Practice and workplace reform. The parties commit to pursue Best Practice as a philosophy of continuous improvement. Consistent with this commitment, the parties recognise that Best Practice extends well beyond the contents of the Agreement to influence the very essence of the approach to work, management and service delivery.
- 29.5.7.3. The parties will facilitate the progression of Best Practice during the life of the Agreement by establishing a framework which integrates programs, policies and consultative mechanisms. The key components of this framework are:
 - a) consultative structures – the central "Umbrella" consultative committee being the peak employee relations consultative body for the Department. It will link with existing consultative mechanisms at a central level and will be supported by local committees at school level;
 - b) school management projects – the parties agree to advance the Department's school-based management agenda through sector wide initiatives (e.g. management of utility costs) and a series of pilot projects in schools (e.g. flexible staffing) detailed within this Appendix;
 - c) facilitative provisions – which provide the capacity for local workplaces to pursue Best Practice approaches which conflict with centrally regulated employment conditions or work practices;
 - d) "Workplace Reform in Schools Program" – an internally generated program which will support those schools involved in school management pilot projects and other projects which have the potential to demonstrate a Best Practice approach to work, management and service delivery.

29.6. Workplace Reform Initiatives

29.6.1. School-Based Management

- a) The parties are committed to a program of long term workplace reform which enhances educational outcomes for students. A progressive path towards school-based management, within an established vision and guiding principles, is a central component of the Department's long term workplace reform agenda. School-based management is a significant workplace reform initiative which has the potential to enhance the efficiency and effectiveness of school operations in the medium to long term.
- b) The underlying basis for progressing school-based management is a recognition that school employees and members of the school community are best positioned to determine management processes and service delivery which best address local requirements and expectations. School-based management will be characterised by collaborative decision making processes, which result in decisions tailored to enhance management and educational outcomes at the school and are consistent with broad policy parameters and the corporate priorities of the Department.

29.6.2. Principles of School-Based Management

- 29.6.2.1. The parties are committed to pursuing a model of school-based management which considers and addresses the unique characteristics and requirements of the Department. To achieve this objective

the parties agree that the following principles will provide the direction for the Department's approach to school-based management:

- a) school-based management will reinforce the focus on the Department's core business of learning and teaching. As with other major elements of the Department's reform agenda, school-based management is intended to enhance student educational outcomes;
- b) responsibility for decisions will be moved as close to the point of implementation as possible. The transition towards school-based management and the rate of change is not constant for all schools. The Department's model of school-based management will recognise the size, location and individual characteristics of schools in determining where functions and responsibilities should reside;
- c) school-based management will be characterised by collaborative decision making. School-based management will be a process where careful consideration is given to the most appropriate location of functions and responsibilities. Movement of functions will occur in both directions between schools and central and regional offices, and will reflect a balance between efficiency and responsiveness;
- d) school-based management will occur within a systemic framework;
- e) the movement towards school-based management is a long-term continuous and incremental process;
- f) the availability and development of systems and technology will mediate the pace with which the Department can move towards school-based management;
- g) the path towards school-based management will reflect the principles of a Best Practice approach to work management and service delivery, as prescribed in 29.5 *Best Practice in Education*; and
- h) school-based management will be accompanied by increased accountability requirements to the community, Department and Government.

29.6.3. Opportunities to Progress School-Based Management

29.6.3.1. Broad avenues have been identified as providing opportunities to progress school-based management. The parties are committed to maximising the opportunities which these avenues may provide. The avenues are:

- a) specific reform initiatives as detailed in this appendix (e.g. the capacity for schools to vary hours of instruction); and
- b) initiatives implemented at an individual school level in the normal manner of staff seeking to adopt Best Practice to work, management and service delivery.

29.6.4. School-Based Management Model

29.6.4.1. The path towards school-based management is a long term and continuous process.

29.6.4.2. The parties acknowledge the progress made to date implementing a progressive approach to school-based management through pilot projects implemented under the *Department of Education Operational Areas Certified Agreement 1994*. The parties agree to cooperate in the implementation of this initiative.

29.6.4.3. This cooperation will involve participation in refining the model of school-based management. As such, the parties are committed to the following implementation parameters:

29.6.4.4. The parties acknowledge that flexibility is required at the school level. So as to attain this flexibility, the unions acknowledge that the Department requires the ability to modify or alter local staffing arrangements in accordance with local needs.

29.6.4.5. The parties acknowledge that flexible staffing arrangements will be determined at a local school level and will occur in accordance with the following parameters:

- a) funds allocated to staff must be used for the employment of staff;
- b) changes to staffing mix shall only occur in the event of a substantive vacancy;
- c) any variation to the staffing mix will be subject to all other guarantees being met;
- d) variations to the staffing mix will only occur following endorsement by the LCC (where an LCC is required) and a majority of staff. Variations must be approved by the School Council (if established), and the Regional Director and submitted to the ECC for approval;
- e) the parties agree to establish a framework to streamline the ECC approval process; and
- f) the terms and conditions of all employees shall be in accordance with applicable industrial instruments, directives as issued by the Industrial Relations Minister in accordance with section 54 of the *Public Service Act 2008* and directives issued by the Commission Chief Executive in accordance with section 53 of the *Public Service Act 2008*. Any new positions shall be subject to job evaluation in accordance with a directive (as amended) relating to recruitment and selection issued by the commission chief executive in accordance with section 54 of the *Public Service Act 2008*.

29.6.4.6. School Councils (if established)

- a) Staff shall be represented by elected representatives on school councils in numbers or proportions as determined by the formal consultation process.
- b) The role of the school council will focus on the broad strategic direction of the school with day to day management remaining the responsibility of the principal.
- c) The school council shall have no role in the appointment, transfer, termination, salary or conditions of employees other than the participation of the school council representative as part of the Department's selection panel for the principal of the school.

29.6.4.7. Transfer

- a) Transfers shall continue to be subject to the existence of a suitable vacancy in the area.
- b) The employer is further committed to the continuation of the existing transfer policy for school support staff in schools.

29.6.4.8. Monitoring Procedures

- a) In order that the guarantees in this document can be properly monitored, the employer will provide to the relevant unions the allocative methodology used as the basis for staffing schools, including allocation of services.
- b) Where available, a breakdown of information by district and sector will also be provided.

29.7. Workplace Reform in Schools Program

29.7.1. The parties agree to continue their coordinated approach to school-based management which is consistent with the overarching principles and direction outlined in 29.2 *Consultation Arrangements and Mechanisms*. A dedicated Workplace Reform in Schools Program is established to support this coordinated approach.

29.7.2. The objectives of a Workplace Reform in Schools Program are to:

- a) pilot a range of reform initiatives in schools which support the Department's reform agenda and satisfy the overarching principles for school-based management;
- b) encourage schools to develop and action research alternative and innovative approaches to work organisation, management and service delivery within a systemic policy framework;
- c) monitor, support and evaluate pilot and action research projects to determine their potential for broader application;
- d) communicate the content, progress and outcomes of Best Practice initiatives across the state to enable other schools to consider implementation; and

- e) develop a culture of continuous workplace improvement and promote a learning environment.

29.7.3. The measurement of productivity for workplace reform purposes should be based on the following simple principles. Performance indicators should:

- a) facilitate the measurement of a combination of direct, quantifiable factors and indirect, qualitative factors which will demonstrate performance enhancement;
- b) be output / outcome focussed;
- c) be simple, easy to interpret and able to be managed at the workplace;
- d) be relevant and meaningful to the workforce; and
- e) be linked to the achievement of organisational objectives.

29.7.4. These principles aim to foster a culture which promotes devolved responsibility for performance management as the foundation for Best Practice and continuous improvement.

29.8. Facilitative Provisions

29.8.1. A facilitative provision is necessary to allow for the variation of employment conditions or work practices at the school or workplace in order to meet the objective of this Part. The following procedures shall apply:

- a) the implementation of changed employment conditions or work practices shall be negotiated between the Principal / supervisors and all employees who would be directly affected in line with consultative mechanisms;
- b) employees may be represented by their local union delegate/s and shall have the right to be represented by their union official/s;
- c) conditions of employment or work practices provided for in facilitative provisions can only be implemented by agreement;
- d) all employees directly affected must be consulted as a group and the relevant union/s notified at least 7 days in advance regarding any proposal;
- e) in the process of determining to vary work practices or employment conditions, appropriate consideration must be given to the potential impact upon employees with family responsibilities, occupational health and safety issues and on other employee groups;
- f) in determining the outcome neither party should unreasonably withhold agreement;
- g) agreement is defined as obtaining the agreement of the majority of employees affected, however it is acknowledged by the parties that consensus should wherever possible be the basis for agreement;
- h) any such proposal shall be subject to ratification by the ECC prior to implementation;
- i) any such agreement reached must be documented, and must incorporate a review period. A copy of such agreement must be forwarded to the relevant union/s and the ECC; and
- j) basic employment conditions, such as the normal weekly pay of employees, hours of duty, recreation leave, sick leave, long service leave and other leave entitlements, shift and weekend penalties and authorised overtime cannot be varied by this process.

29.9. Administrative Practices – Facilities Management

29.9.1. The parties are committed to the efficient use and management of physical assets within the Department consistent with corporate goals and objectives and in compliance with relevant legislation, Acts, directives, financial management strategies and initiatives. As a consequence, the following objectives shall be pursued by all employees of the Department where relevant and appropriate:

The parties acknowledge that a preventative approach to organisational health issues is critical to the maintenance of healthy workplaces. The parties further agree that a risk management approach to the improvement of organisational health will be a central component of the programs and strategies implemented at school and work unit level.

APPENDIX 3: AUSTRALIAN QUALIFICATIONS FRAMEWORK

The Australian Qualifications Framework (the AQF) is the national policy for regulated qualifications in Australian education and training. It incorporates the qualifications from each education and training sector into a single comprehensive national qualifications framework.

AQF Qualifications	Referred to in this Agreement as:
• Senior Secondary Certificate of Education	• AQF I
• Certificate I	• AQF II
• Certificate II	• AQF III
• Certificate III	• AQF IV
• Certificate IV	• AQF V
• Diploma	• AQF VI
• Advanced Diploma	
• Associate Degree	
• Bachelor Degree	
• Graduate Certificate	
• Vocational Graduate Certificate	
• Graduate Diploma	
• Vocational Graduate Diploma	
• Master's Degree	
• Doctoral Degree	

The Framework links together all these qualifications and is a highly visible, quality-assured national system of educational recognition, which promotes lifelong learning and a seamless and diverse education and training system.

Why is the AQF important?

Qualifications certify the knowledge and skills a person has achieved through study, training, work and life experience. The AQF helps all learners, employers and education and training providers to participate and navigate the qualifications system. Under the AQF, learners can start at the level that suits them and then build up as their needs and interests develop and change over time. The Framework assists learners to plan their career progression, at whatever stage they are within their lives and when they are moving interstate and overseas. In this way, the AQF supports national standards in education and training and encourages lifelong learning.

What are the key objectives of the AQF?

The AQF:

- provides nationally consistent recognition of outcomes achieved in post-compulsory education;
- helps with developing flexible pathways which assist people to move more easily between education and training sectors and between those sectors and the labour market by providing the basis for recognition of prior learning, including credit transfer and work and life experience;
- integrates and streamlines the requirements of participating providers, employers and employees, individuals and interested organisations;
- offers flexibility to suit the diversity of purposes of education and training;
- encourages individuals to progress through the levels of education and training by improving access to qualifications, clearly defining avenues for achievement, and generally contributing to lifelong learning;
- encourages the provision of more and higher quality vocational educational and training through qualifications that normally meet workplace requirements and vocational needs, thus contributing to national economic performance; and
- promotes national and international recognition of qualifications offered in Australia.

APPENDIX 4: QUEENSLAND GOVERNMENT COMMITMENT TO UNION ENCOURAGEMENT

The Queensland Government has made a commitment to encourage union membership among its employees.

As part of this commitment the Government will:

- Acknowledge union delegates and job representatives have a role to play within a workplace, including during the agreement making process. The existence of accredited union delegates and/or job representatives is to be encouraged. Accredited union delegates and/or job representatives shall not be unnecessarily hindered in the reasonable and responsible performance of their duties.
- Subject to relevant legislation, allow employees full access to union delegates/officials during working hours to discuss any employment matter or seek union advice, provided that service delivery is not disrupted and work requirements are not unduly affected. Delegates will be provided reasonable access to facilities for the purpose of undertaking union activities.
- Encourage the establishment of joint union and employer consultative committees at a central and agency level.
- Promote reasonable and constructive industrial relations education leave in the form of paid time off to acquire knowledge and competencies in industrial relations.
- Provide an application for union membership and information on the relevant union(s) to all employees at the point of engagement and during induction.
- At the point of engagement, provide employees with a document indicating that the Agency encourages employees to join and maintain financial membership of an organisation of employees that has the right to represent their industrial interests.
- Subject to relevant privacy considerations, provide union(s) with details of new employees.

The active cooperation of all managers and supervisors is necessary to ensure that the Government can honour this commitment.

Passive acceptance by agencies of membership recruitment activity by unions does not satisfy the government's commitment. Encouragement requires agencies to take a positive, supportive role, although ultimately it remains the responsibility of the unions themselves to conduct membership recruitment.

APPENDIX 5: EMPLOYMENT SECURITY POLICY

1. Introduction

The Queensland Government has restored this employment security policy for government agencies as part of its commitment to restoring fairness for its workforce.

The Government is committed to maximum employment security¹ for permanent government employees (as outlined in section 2 - Application) by developing and maintaining a responsive, impartial and efficient government workforce as the preferred provider of existing services to Government and the community. The workforce's commitment to continue working towards achievement of best practice performance levels makes this commitment possible.

The Government is also committed to providing stability to the government workforce by curbing organisational restructuring. The focus will be on pursuing performance improvement strategies for the government workforce to achieve "best value" delivery of quality services to the community, in preference to restructuring, downsizing or simply replacing government workers with non-government service providers. A greater emphasis will be placed on effective change management, which together with workforce planning, career planning and skills development will ensure that the government workforce has the flexibility and mobility to meet future needs.

Further, the Government undertakes that permanent government employees will not be forced into unemployment as a result of organisational change or changes in agency priorities other than in exceptional circumstances. Where changes to employment arrangements are necessary, there will be active pursuit of retraining and deployment opportunities, and involuntary redundancy will only occur in exceptional circumstances, and only with the approval of the Commission Chief Executive, Public Service Commission.

2. Application

This policy applies to all permanent employees of Queensland Government agencies (including departments, public service offices, statutory authorities and other government entities as defined under the *Public Service Act 2008*).

This policy does not apply to government employees who are subject to disciplinary action which would otherwise result in termination of employment, or who are not participating in reasonable opportunities for retraining, deployment or redeployment.

3. Authority

This policy was approved by Cabinet on 30 March 2015.

4. Policy

4.1 Permanent Employment

The Queensland Government is committed to maximising permanent employment where possible. Casual or temporary forms of employment should only be utilised where permanent employment is not viable or appropriate. Agencies are encouraged to utilise workforce planning and management strategies to assist in determining the appropriate workforce mix for current and future needs.

4.2 Organisational change and restructuring

It is the Government's intention that future organisational change and restructuring will be limited in scale. All organisational change will need to demonstrate clear benefits and enhanced service delivery to the community. The objective is to stabilise government agencies, and to avoid unnecessary change that will not deliver demonstrable benefit to the Government or the community.

Cabinet approval is required for all major organisational change and restructuring in agencies:

- (a) that will significantly impact on the government workforce (e.g. significant job reductions, deployment to new locations, alternative service delivery arrangements, etc). The emphasis will be on minimum disruption to the workforce and maximum placement of affected staff within agencies, and ordinarily organisational restructuring should not result in large scale “spilling” of jobs.
- (b) that will have major social and economic implications, particularly in regional and rural centres where the government is committed to maintaining government employment. Proposals affecting these centres need to carefully evaluate the impact on communities to ensure that short-term efficiency gains are balanced against the long-term social and economic needs of these communities.

The agency will need to demonstrate that any proposed organisational change or restructuring will result in clearly defined service enhancements to government and/or the community, as identified in a business case, and be undertaken through a planned process. Where an agency has made a decision to introduce major organisational change or restructuring, it will notify affected employees/unions and discuss the changes as early as practicable. This may be undertaken through forums such as Agency Consultative Committees.

The requirement to obtain Cabinet approval for major organisational change is not intended to reduce the flexibility of Chief Executives in their day-to-day management of agencies’ operations. Chief Executives retain prerogative over normal business activities to manage the government workforce, (such as job reclassification, job redesign, performance management, disciplinary action and transfers), and organisational improvement initiatives (such as process re-engineering, changes in work practices and the introduction of new technology).

4.3 Employees affected by organisational change

The government undertakes that tenured government employees will not be forced into unemployment as a result of organisational change, other than in exceptional circumstances.

Government employees affected by performance improvement initiatives or organisational change will be offered maximum employment opportunities within the government, including retraining, deployment, and redeployment. Only after these avenues have been explored will voluntary early retirement be considered.

Where continuing employment in the government is not possible, support, advice and assistance will be provided to facilitate transition to new employment opportunities. In the event of a decision to outsource a government service, the agency should ensure that every effort is directed towards assisting employees to take up employment with the external provider. Retrenchment will only be undertaken in exceptional circumstances where deployment or redeployment are not options, and only with the approval of the Commission Chief Executive, Public Service Commission.

4.4 Consultation

For further advice on the application of this policy, agencies should consult with the Office of Fair and Safe Work Queensland.

APPENDIX 6: QUEENSLAND GOVERNMENT POLICY ON THE CONTRACTING-OUT OF SERVICES

Application

The Queensland Government recognises that Government agencies are the key instruments for delivering or implementing the policies of the Government.

In striving to achieve "best value" delivery of services to the community, the Government's focus will be on pursuing performance improvement strategies for its workforce, not on simply replacing Government employees with non-Government service providers.

In this regard, the Government has restored the following policy on contracting-out of services as part of its commitment to restoring fairness for the Government workforce. This policy¹ applies to all Queensland Government agencies (including departments, public service offices, statutory authorities, and other Government entities as defined under the *Public Service Act 2008*) and all tenured employees of these agencies. The Government recognises that, in the case of Queensland Health (comprising the Department of Health and the Hospital and Health Services), public health services are provided through a mix of in-house delivered services and partnerships with non-Government, community and private sector health providers.

For the purposes of this policy, contracting-out refers to a contractual arrangement to deliver a service to Government or the provision of a Government service by a non-Government service provider. Capital works programs are not considered Government services for the purpose of this policy. This means that current arrangements for delivery of the capital works program through competitive tendering will continue. Further, the purchase of services by Government agencies from an internal Government provider is not regarded as contracting-out.

Similarly, services contracted to community service providers through grant programs or as recurrently funded programs are not regarded as being contracted-out for the purposes of this policy.

This policy does not apply to the normal purchase of inputs to Government agencies such as office supplies and consultancies. It does however apply to contractual arrangements such as cleaning and other 'hotel' type services.

Where there are major joint ventures or co-locations with the private sector (e.g. hospital co-locations) decisions on the delivery of support services will be made on a case by case basis.

Authority

This policy was released on 16 January 2016.

Policy

Services currently provided in-house (i.e. by a Government agency).

It is the policy of the Government that in order to maintain existing Government jobs, there will be no contracting-out of services currently provided in-house other than in circumstances where:

- a) actual shortages exist in appropriately skilled in-house staff;
- b) there is a lack of available infrastructure capital or funds to meet the cost of providing new technology; or
- c) it can clearly be demonstrated that it is in the public interest that services should be contracted-out.

Cabinet approval will be required only for contracting-out proposals that meet the criteria outlined above where they would have a significant impact on the Government's workforce in terms of job losses. Cabinet submissions proposing contracting-out initiatives should detail:

¹ This policy should be read in conjunction with applicable industrial instruments.

- why the service cannot continue to be delivered by Government agencies;
- the impact on the Government workforce;
- how the proposed initiative will improve Government service delivery;
- any social and/or economic impact on the Queensland community;
- the impact on regional and rural communities, where relevant, particularly in regard to maintenance of public employment in regional and rural Queensland;
- the impact on future competitive tendering in a market where the Government will have no capacity to bid;
- communication and consultation strategies, including managing the impact on the tenured Government workforce, and workforce transition plans for deployment, redeployment and retraining; and
- the cost implications for Government.

Where the Government agrees to contract-out services, employees and the relevant unions will be consulted as early as possible. Discussions will take place prior to any steps being taken to call tenders or to enter into any alternative bidding arrangement for the provision of services by an external provider.

If, after full consultation with employees and relevant unions, employees are to be affected by the necessity to contract-out services, the Government agency should:

- ensure that effort is directed towards assisting employees to take up employment with the contractor; and/or
- ensure that employees are given the maximum opportunity to accept deployment and redeployment.

3.2 Services currently contracted-out

It is the policy of the Government that when existing contracts with non-Government providers are due for renewal, the services generally will be once again offered to contract.

If the conditions of the existing contract allow for the contract to be renewed without a tendering process, and the external provider has met all the conditions of the contract, a new contract may be offered to the current provider subject to continuing commercial viability and the mutual agreement of both parties.

Where a contract is due to expire and a tendering process is proposed, Government agencies may bid for the work, subject to any legislative requirements and Government agencies competing on a fair basis – that is, with any advantages or disadvantages that stem solely from their public ownership being removed or accounted for in an appropriate manner. Operational guidelines will be developed to assist agencies in assessing the relative merits of in-house and external bids.

In-sourcing will be undertaken only where it can be demonstrated that work is competitive on an overall "best value" basis, including quality and cost of purchase and maintenance of any capital equipment required to perform the work.

3.3 New services

A decision on whether it is appropriate to contract-out new Government services with significant workforce impacts will be made on a case by case basis by Cabinet. Opportunity will be provided for the new Government service to be delivered by in-house staff where it can be demonstrated that work is competitive on an overall "best value" basis, including quality and cost of purchase and maintenance of any capital equipment required to perform the work.

- Cabinet submissions proposing contracting-out of new services should detail:
- any social and/or economic impact on the Queensland community;
- the impact on regional and rural communities;
- the impact on future competitive tendering in a market where the Government will have no capacity to bid;

- why the service needs to be delivered by a non-Government service provider; and
- the cost implications for Government.

3.4 Services in replacement facilities

Existing outsourcing arrangements may not always be extended to replacement facilities (e.g. replacement hospitals and schools). A decision by Cabinet on whether it is appropriate to continue to contract-out services in replacement facilities will be made on a case by case basis.

Where a decision is made to transfer the existing contract to a replacement service, this may be offered to the current provider subject to commercial viability and the mutual agreement of both parties.

Opportunity should be given for in-house staff to undertake the work where it can be demonstrated that work is competitive on an overall "best value" basis, including quality and cost of purchase and maintenance of any capital equipment required to perform the work.

Cabinet submissions proposing contracting-out of replacement services should detail:

- the impact on the Government workforce;
- how the proposed initiative will result in improvements to Government service delivery;
- any social and/or economic impact on the Queensland community;
- the impact on regional and rural communities, where relevant, particularly in regard to maintenance of public employment in regional and rural Queensland;
- the impact on future competitive tendering in a market where the Government will have no capacity to bid, if relevant; and
- the cost implications for Government.

3.5 Implementing the Policy on the Contracting-Out of Services

In applying this policy, the following principles should be adhered to:

- i. The primary focus should be on improving the productivity of the existing Government workforce through performance improvement strategies (such as training, innovation, and benchmarking);
- ii. Where services currently contracted-out come up for tender, or the delivery of new services and services in replacement facilities are being considered, in-house staff should be given the opportunity to undertake the work where it can be demonstrated that it is competitive on an overall "best value" basis, including quality and cost of purchase and cost of maintenance of any necessary capital equipment;
- iii. Where competitive tenders involve in-house bids, those bids must be fairly based – that is, with any advantages or disadvantages that stem solely from their public ownership being removed or accounted for in an appropriate manner;
- iv. Except in exceptional circumstances, in-house work units should be afforded sufficient opportunity and support, over a reasonable time, to achieve an acceptable level of performance, efficiency and effectiveness, before alternative service provision options are considered; and
- v. Options for the management of employees affected by organisational change are to include deployment, retraining, redeployment and voluntary early retirement.
