No party shall be prejudiced as to the final settlement by the continuation of work.

3.2.4 In the event of any disagreement between the parties as to the interpretation or implementation of this Award, the following procedures shall apply:

The chief executive shall advise the employee initiating the grievance, such employee's union representative and any other employee directly concerned of the determinations made as a result of the investigation of the grievance.

The chief executive may delegate such chief executive's grievance resolution powers to a nominated representative.

3.3.6 The procedure is to be completed in accordance with the following time frames unless the parties agree otherwise:

Stage 1 Discussions should take place between the employee and such employee's supervisor within 24 hours and the procedure shall not extend beyond 7 days.

Stage 2 Not to exceed 7 days.

Stage 3 Not to exceed 14 days.

3.3.7 If the grievance is not settled the matter shall be referred to the chief executive of the Public Service Commission or the Commission by the employee or the union, as appropriate, in accordance with the respective jurisdictions of the tribunals.

3.3.8 Subject to legislation, while the grievance procedure is being followed, normal work is to continue, except in the case of a genuine safety issue. The *status quo* existing before the emergence of a grievance or dispute is to continue while the procedure is being followed. No party shall be prejudiced as to the final settlement by the continuation of work.

3.3.9 Where the grievance involves allegations of sexual harassment, an employee may commence the procedure at Stage 3.

PART 4 - EMPLOYER AND EMPLOYEES' DUTIES, EMPLOYMENT RELATIONSHIP AND RELATED ARRANGEMENTS

4.1 Employment categories

4.1.1 Employees (other than casual employees) covered by this Award shall be advised in writing of their employment category upon appointment.

Employment categories are:

(a) Full-time;

(b) Part-time (as prescribed in clause 4.2); and

(c) Casual (as prescribed in clause 4.3).

4.1.2 Piecework prohibited

Piecework of any description shall not be worked. Contract work for labour only or substantially for labour only shall be considered piecework within the meaning of clause 4.1.2.

4.2 Part-time employment

4.2.1 A part-time employee is an employee who:

(a) is employed for a minimum of 10 hours per week and for less than 38 ordinary hours per week; and

(b) is engaged to work on predetermined days of the week for a regular number of hours, and

(c) receives, on a *pro rata* basis, equivalent pay and conditions to those of full-time employees covered by this Award:

- 4.2.2 At the time of engagement, the employer and the employee will agree in writing on the pattern of work required, including specifying the number of ordinary hours per week, the days on which the work is to be performed and the usual daily starting and finishing times.
- 4.2.3 Any amendment to the normal starting and ceasing times will be by mutual agreement.
- 4.2.4 The agreed number of ordinary hours per week may only be amended by mutual agreement. Any such agreed amendment to the number of weekly hours of work will be recorded in writing.
- 4.2.5 A part-time employee who works in excess of the ordinary weekly hours prescribed by this Award shall be paid in accordance with clause 6.3 (Overtime).
- 4.2.6 A part-time employee employed under the provisions of clause 4.2 must be paid for ordinary hours worked at the rate of 1/38th of the weekly rate prescribed for the class of work performed.
- 4.2.7 Where a public holiday falls on a day upon which an employee is normally employed, that employee will be paid the appropriate rate for the number of hours normally worked on that day.

4.3 Casual employment

4.3.1 Casual employees may be engaged on the following terms:

- (a) A casual employee is an employee who is employed by the hour for less than the maximum ordinary working hours per week prescribed herein for a full-time employee.
- (b) Termination of employment by either party shall be by giving 2 hours' notice, or payment/forfeiture in lieu thereof.
- (c) A casual employee shall be paid an hourly rate equal to 1/38th of the weekly rate prescribed by this Award for the classification under which they are engaged and adding a loading of 23% thereto. Such loading shall be in lieu of all leave entitlements applicable. It does not preclude a casual employee being entitled to long service leave entitlements under the Act.

4.4 Incidental and peripheral tasks

- 4.4.1 An employer may direct an employee to carry out such duties as are reasonably within the limits of the employee's skill, competence and training.
- 4.4.2 An employer may direct an employee to carry out such duties and use such tools and equipment as may be required, provided that the employee has been properly trained in the use of such tools and equipment.
- 4.4.3 Any direction issued by an employer pursuant to clauses 4.4.1 and 4.4.2 will be consistent with the employer's responsibilities to provide a safe and healthy working environment.

4.5 Termination of employment

4.5.1 *Statement of employment*

An employer shall, in the event of termination of employment, provide upon request to the employee who has been terminated a written statement specifying the period of employment and the classification or type of work performed by the employee.

4.5.2 *Termination by employer*

- (a) An employer may dismiss an employee only if the employee has been given the following notice:

Period of Continuous Service	Period of Notice
Not more than 1 year	1 week
More than 1 year but not more than 3 years	2 weeks
More than 3 years but not more than 5 years	3 weeks
More than 5 years	4 weeks

- (b) In addition to the notice in (a) above, employees 45 years old or over and who have completed at least 2 years' continuous service with the employer shall be entitled to an additional week's notice.

- (c) Payment in lieu of notice shall be made if the appropriate notice is not given:

Provided that employment may be terminated by part of the period of notice specified and part payment in

lieu thereof.

- (d) In calculating any payment in lieu of notice the minimum compensation payable to an employee will be at least the total of the amounts the employer would have been liable to pay the employee if the employee's employment had continued until the end of the required notice period. The total must be worked out on the basis of:
- (i) the ordinary working hours to be worked by the employee; and
 - (ii) the amounts payable to the employee for the hours including for example allowances, loadings and penalties; and
 - (iii) any other amounts payable under the employee's employment contract.
- (e) The period of notice in this clause shall not apply in the case of dismissal for misconduct or other grounds that justify instant dismissal, or in the case of a casual employee, or an employee engaged by the hour or day, or an employee engaged for a specific period or tasks.

4.5.3 *Notice of termination by employee*

The notice of termination required to be given by an employee is one week. If an employee fails to give notice the employer shall have the right to withhold monies due to the employee with a maximum amount equal to the ordinary time rate for the period of notice.

4.5.4 *Time off during notice period*

During the period of notice of termination given by the employer, an employee shall be allowed up to one day's time off without loss of pay for the purpose of seeking other employment. This time off shall be taken at times that are convenient to the employee after consultation with the employer.

4.6 Introduction of changes

4.6.1 *Employer's duty to notify*

- (a) Where an employer decides to introduce changes in production, program, organisation, structure or technology, that are likely to have significant effects on employees, the employer shall notify the employees who may be affected by the proposed changes and, where relevant, their Union or Unions.
- (b) 'Significant effects' includes termination of employment, major changes in the composition, operation or size of the employer's workforce or in the skills required; the elimination or diminution of job opportunities or job tenure; the alteration of hours of work; the need for retraining or transfer of employees to other work or locations and the restructuring of jobs:

Provided that where the Award makes provision for alteration of any of the matters referred to herein an alteration shall be deemed not to have significant effect.

4.6.2 *Employer's duty to consult over change*

- (a) The employer shall consult the employees affected and, where relevant, their Union or Unions about the introduction of the changes, the effects the changes are likely to have on employees (including the number and categories of employees likely to be dismissed, and the time when, or the period over which, the employer intends to carry out the dismissals), and the ways to avoid or minimise the effects of the changes (e.g. by finding alternative employment).
- (b) The consultation must occur as soon as practicable after making the decision referred to in clause 4.6.1.
- (c) For the purpose of such consultation the employer shall provide in writing to the employees concerned and, where relevant, their Union or Unions, all relevant information about the changes including the nature of the changes proposed, the expected effects of the changes on employees, and any other matters likely to affect employees:

Provided that any employer shall not be required to disclose confidential information, the disclosure of which would be adverse to the employer's interests.

4.7 Redundancy

The provisions of clause 4.7 will not apply to employees of Queensland government departments and agencies to the extent that the provisions of the redundancy arrangements are contained in a Directive issued by the Minister responsible for industrial relations pursuant to section 54 of the *Public Service Act 2008*, where the Directive provides for entitlements that are superior to clause 4.7.

4.7.1 *Consultation before terminations*

- (a) Where an employer decides that the employer no longer wishes the job the employee has been doing to be done by anyone, and this is not due to the ordinary and customary turnover of labour, and that decision may lead to termination of employment, the employer shall consult the employee directly affected and where relevant, their Union or Unions.
- (b) The consultation shall take place as soon as it is practicable after the employer has made a decision, which will invoke the provisions of clause 4.7.1(a) and shall cover the reasons for the proposed terminations, measures to avoid or minimise the terminations and/or their adverse effects on the employees concerned.
- (c) For the purpose of the consultation the employer shall, as soon as practicable, provide in writing to the employees concerned and, where relevant, their Union or Unions, all relevant information about the proposed terminations including the reasons for the proposed terminations, the number and categories of employees likely to be affected, the number of workers normally employed and the period over which the terminations are likely to be carried out:

Provided that any employer shall not be required to disclose confidential information, the disclosure of which would be adverse to the employer's interests.

4.7.2 *Transfer to lower paid duties*

- (a) Where an employee is transferred to lower paid duties for reasons set out clause 4.7.1 the employee shall be entitled to the same period of notice of transfer as the employee would have been entitled to if the employee's employment had been terminated under clause 4.5.
- (b) The employer may, at the employer's option, make payment in lieu thereof of an amount equal to the difference between the former amounts the employer would have been liable to pay and the new lower amount the employer is liable to pay the employee for the number of weeks of notice still owing.
- (c) The amounts must be worked out on the basis of:
 - (i) the ordinary working hours to be worked by the employee; and
 - (ii) the amounts payable to the employee for the hours including for example, allowances, loadings and penalties; and
 - (iii) any other amounts payable under the employee's employment contract.

4.7.3 *Transmission of business*

- (a) Where a business is, whether before or after the date of insertion of this clause in the Award transmitted from an employer (transmittor) to another employer (transmittee), and an employee who at the time of such transmission was an employee of the transmittor of the business, becomes an employee of the transmittee:
 - (i) the continuity of the employment of the employee shall be deemed not to have been broken by reason of such transmission; and
 - (ii) the period of employment which the employee has had with the transmittor or any prior transmittor shall be deemed to be service of the employee with the transmittee.
- (b) In clause 4.7.3 'business' includes trade, process, business or occupation and includes a part or subsidiary (which means a corporation that would be taken to be a subsidiary under the Corporations Law, whether or not the Corporations Law applies in the particular case) of any such business and 'transmission' includes transfer, conveyance, assignment or succession whether by agreement or by operation of law and 'transmitted' has a corresponding meaning.

4.7.4 *Time off during notice period*

- (a) Where a decision has been made to terminate an employee in the circumstances outlined in clause 4.7.1 the employee shall be allowed up to one day's time off without loss of pay during each week of notice for the purpose of seeking other employment.
- (b) If the employee has been allowed paid leave for more than one day during the notice period for the purpose of seeking other employment, the employee shall, at the request of the employer, be required to produce proof of attendance at an interview or the employee shall not receive payment for the time absent. For this purpose a statutory declaration will be sufficient.

4.7.5 *Notice to Centrelink*

Where a decision has been made to terminate employees in the circumstances outlined in clause 4.7.1 the employer shall notify Centrelink as soon as possible giving all relevant information about the proposed terminations, including a written statement of the reasons for the terminations, the number and categories of the employees likely to be affected, the number of workers normally employed and the period over which the terminations are intended to be carried out.

4.7.6 *Severance pay*

- (a) In addition to the period of notice prescribed for ordinary termination in clause 4.5.2(a) and subject to further order of the Commission, an employee whose employment is terminated for reasons set out in clause 4.7.1(a) shall be entitled to the following amounts of severance pay:

Period of Continuous Service	Severance Pay (weeks' pay)
Less than 1 year	nil
1 year but not more than 2 years	4

More than 6 years but not more than 7 years	10
More than 7 years but not more than 8 years	11
More than 8 years but not more than 9 years	12
More than 9 years but not more than 10 years	13
More than 10 years but not more than 11 years	14
More than 11 years but not more than 12 years	15
More than 12 years	16

- (b) 'Weeks' Pay' means the ordinary time rate of pay for the employee concerned:

Provided that the following amounts are excluded from the calculation of the ordinary time rate of pay: overtime, penalty rates, disability allowances, shift allowances, special rates, fares and travelling time allowances, bonuses and any other ancillary payments.

4.7.7 *Superannuation benefits*

An employer may make an application to the Commission for relief from the obligation to make severance payments in circumstances where:

- (a) the employer has contributed to a superannuation scheme which provides a particular benefit to an employee in a redundancy situation; and
- (b) the particular benefit to the employee is over and above any benefit the employee might obtain from any legislative scheme providing for superannuation benefits (currently the federal Superannuation Guarantee levy) or an award based superannuation scheme.

4.7.8 *Employee leaving during notice*

An employee whose employment is terminated for reasons set out in clause 4.7.1(a) may terminate such employment during the period of notice, and, if so, shall be entitled to the same benefits and payments under this clause had such employee remained with the employer until the expiry of such notice:

Provided that in such circumstances the employee shall not be entitled to payment in lieu of notice.

4.7.9 *Alternative employment*

An employer, in a particular case, may make application to the Commission to have the general severance pay prescription amended if the employer obtains acceptable alternative employment for an employee.

4.7.10 *Employees with less than one year's service*

Clause 4.7 shall not apply to employees with less than one year's continuous service and the general obligation on employers should be no more than to give relevant employees an indication of the impending redundancy at the first reasonable opportunity, and to take such steps as may be reasonable to facilitate the obtaining by the employees of suitable alternative employment.

4.7.11 *Employees exempted*

Clause 4.7 shall not apply:

- (a) where employment is terminated as a consequence of misconduct on the part of the employee; or
- (b) to employees engaged for a specific period or task(s); or
- (c) to casual employees.

4.7.12 *Employers exempted*

Subject to an order of the Commission, in a particular redundancy case, clause 4.7 shall not apply to an employer that employs employees working a total of fewer than 550 hours on average per week, excluding overtime, Monday to Sunday. The 550 hours shall be averaged over the previous 12 months.

4.7.13 *Exemption where transmission of business*

- (a) The provisions of clause 4.7.6 are not applicable where a business is before or after the date of the insertion of this clause into the Award, transmitted from an employer (transmittor) to another employer (transmittee), in any of the following circumstances:
 - (i) where the employee accepts employment with the transmittee which recognises the period of continuous service which the employee had with the transmittor, and any prior transmittor, to be continuous service of the employee with the transmittee; or
 - (ii) where the employee rejects an offer of employment with the transmittee:
 - (A) in which the terms and conditions are substantially similar and no less favourable, considered on an overall basis, than the terms and conditions applicable to the employee at the time of ceasing employment with the transmittor; and
 - (B) which recognises the period of continuous service which the employee had with the transmittor and any prior transmittor to be continuous service of the employee with the transmittee.
- (b) The Commission may amend clause 4.7.13(a)(ii) if it is satisfied that it would operate unfairly in a particular case, or in the instance of contrived arrangements.

4.7.14 *Incapacity to pay*

An employer in a particular redundancy case may make application to the Commission to have the general severance pay prescription amended on the basis of the employer's incapacity to pay.

4.8 Mixed functions

- 4.8.1 An employee engaged for more than 4 hours on any one day on work which carries a higher rate than their ordinary classification, shall be paid the higher rate for the whole day. If employed for 4 hours or less on any one day the employee shall be paid at the higher rate for 4 hours:

Provided that builder's labourers who during any one week perform "jackhammer work" as described in clause 1.7.6(c) for a total of twenty hours or more, irrespective of the number of days involved, shall be paid at the rate prescribed in classification (c) of clause 5.1.1 for the whole of the time worked by them during that week.

4.9 Anti-discrimination

- 4.9.1 It is the intention of the parties to this Award to prevent and eliminate discrimination, as defined by the *Anti-Discrimination Act 1991* and the *Industrial Relations Act 1999* as amended from time to time, which includes:
- (a) discrimination on the basis of sex; relationship status, family responsibilities, pregnancy, parental status, breastfeeding, age, race, impairment, religious belief or religious activity, political belief or activity, trade union activity, lawful sexual activity, gender identity, sexuality and association with, or in relation to, a person identified on the basis of the above attributes;
 - (b) sexual harassment; and
 - (c) racial and religious vilification.
- 4.9.2 Accordingly, in fulfilling their obligations under the grievance and dispute settling procedure in clause 3.1 and clause 3.2, the parties to this Award must take reasonable steps to ensure that neither the Award provisions nor their operation are directly or indirectly discriminatory in their effects.
- 4.9.3 Under the *Anti-Discrimination Act 1991* it is unlawful to victimise an employee because the employee has made or may make or has been involved in a complaint of unlawful discrimination or harassment.

4.9.4 Nothing in clause 4.9 is to be taken to affect:

- (a) any different treatment (or treatment having different outcomes) which is specifically exempted under the *Anti-Discrimination Act 1991*;
- (b) an employee, employer or registered organisation, pursuing matters of discrimination, including by application to the Australian Human Rights Commission/Anti-Discrimination Commission Queensland.

PART 5 - WAGES AND WAGE RELATED MATTERS

5.1 Wages

5.1.1 It is a provision of this Award that no employees will be disadvantaged in respect of their ordinary time earnings as a result of the restructuring process.

5.1.2 The minimum rates of wages payable to the following classes of employees shall be as follows:

Calling - Southern Division, Eastern District

Classification Level	NBCIA equivalent	Relativity %	Award rate per week \$	On-site Allowance per week \$

BT 3 (Trade + 24 points)	CW5	110	748.30	26.70

The "on-site" allowance shall be as an additional allowance payable only when "Building Construction" work is undertaken as defined in clause 1.7.5. This rate includes compensation for:

- (a) climatic conditions when working in the open on all types of work;
- (b) dust blowing in the wind on building sites;
- (c) sloppy and muddy conditions associated with the initial stages of the erection of a building;
- (d) dirty conditions caused by the use of form oil or from green timber;
- (e) drippings from newly poured concrete;
- (f) the disability of working on all types of scaffolds, other than single plank, swing scaffold or a bosun's chair;
and
- (g) the lack of the usual amenities associated with factory work (e.g. recreational facilities, sanitary conveniences, etc.).

The above additional payment shall form part of the weekly wage in the calculation of overtime payments, annual leave pay, public holiday pay and long service leave pay.

NOTE: The rates of pay in this Award are intended to include the arbitrated wage adjustment payable under the 1 September 2011 Declaration of General Ruling and earlier Safety Net Adjustments and arbitrated wage adjustments. This arbitrated wage adjustment may be offset against any equivalent amount in rates of pay received by employees whose wages and conditions of employment are regulated by this Award which are above the wage rates prescribed in the Award. Such payments include wages payable pursuant to certified agreements, currently operating enterprise flexibility agreements, award amendments to give effect to enterprise agreements and overaward arrangements. Absorption which is contrary to the terms of an agreement is not required.

Increases made under previous State Wage Cases or under the current Statement of Principles, excepting those resulting from enterprise agreements, are not to be used to offset arbitrated wage adjustments.

5.1.3 *Divisional and District parities*

In addition to the rates of wages set out in this Award for the Southern Division Eastern Districts, the following allowances shall be paid to all employees covered by this Award employed in the following Divisions:

	Per Week
	\$
Northern Division Eastern District	1.10
Northern Division, Western District	2.20
Southern Division, Western District	1.05
Mackay Division	0.90

5.1.4 *Award restructuring exercise*

- (a) The parties to the building, construction and related industries - employers, unions and governments - have for some time shared a belief that the industry needs to improve the way it goes about its work. This is in recognition of the fact that the potential of the industry, in both domestic and international terms, is not being fully realised.

This 'Award Restructuring Exercise' addresses some of the key issues relating to the way work is organised and skills are acquired and rewarded. In addition, it also attempts to address the perennial concerns of construction workers relating to job security and skills acquisition. This Award Restructuring Exercise recognises that the unique nature of the industry calls for different solutions to some problems to that adopted in other industries. However, to the extent possible, consistency has been maintained with other restructured awards.

The parties are committed to nationally approved competency standards and accredited, structured training. The parties also recognise and support the maintenance of structured trade training in the industry.

- (b) What is Award Restructuring?

Award restructuring is a shorthand title for a wide-ranging agenda for reform. In those industries closely related to the building and construction industry the main elements of restructuring include:

- a new classification structure based on nationally recognised vocational qualifications that reflect current work applications and practices ;
- the creation of skill related career paths for all employees; and
- increased labour flexibility at the workplace.

Parties shall implement this New Classification Structure through appropriate consultative mechanisms. This may include use of existing consultative mechanisms where appropriate. Wherever possible, consultative committees comprising equal numbers of employee and employer representatives shall be established. Matters raised for consideration by the consultative committee shall be related to implementation of the new classification structure, the facilitative provisions contained in this Award, matters concerning training, and reclassification issues.

No existing employee's rate of pay shall be reduced as a result of the introduction of this New Classification Structure.

Provided further that safety net increases shall continue to apply.

5.1.5 *Definitions*

- (a) "Industry Accredited Course" is a course that has been constructed to reflect a group of industry relevant

competency standards endorsed by an Industry Skills Council, such as Construction and Property Services Industry Skills Council (CPSISC), and recognised in accordance with the provisions of the *Vocational Education, Training and Employment Act 2000*.

- (b) "Nationally Accredited Course" means a structured sequence of vocational education and training that has been accredited and leads to an Australian Qualification Framework (AQF) qualification or Statement of Attainment.
- (c) "Industry Skills Council" shall bear the meaning and functions contained in the *Vocational Education, Training and Employment Act 2000*. An Industry Skills Council may act on its own behalf or involve other training organisations such as Registered Training Organisations in the provision of independent expert advice and assistance with dispute settlement. In this regard, Construction and Property Services Industry Skills Council (CPSISC) is recognised as the most relevant Industry Skills Council to assist the Building, Construction and related industries with a role to provide strategic advice in respect of matters relating to training in the industry and callings covered by this Award, including but not being limited to:
- competency standards;
 - curriculum development;
 - qualifications;
 - articulation and accreditation requirements both on and off the job;
 - on the job training guidelines; and
 - assessment and certification arrangements.

In relation to the development of qualifications relevant to this Award, CPSISC may consult with other bodies or committees of a like nature to ensure that consistent standards are maintained across industries.

- (d) 'Registered Training Organisation' (RTO) shall mean an organisation such as Queensland TAFE or a private training provider that meets the registration requirements within the *Vocational Education, Training and Employment Act 2000*.
- (e) 'Recognition of Prior Learning' (RPL) means recognition of competencies currently held, regardless of how, when or where the learning occurred. Under the Australian Quality Training Framework, competencies may be attained in a number of ways. This includes through any combination of formal or informal training and education, work experience or general life experience. In order to grant RPL, the assessor must be confident that the candidate is currently competent against the endorsed industry or enterprise competency standards or outcomes specified in Australian Qualifications Framework accredited courses. The evidence may take a variety of forms and could include certification, references from past employers, testimonials from clients and work samples. The assessor must ensure that the evidence is authentic, valid, reliable, current and sufficient.
- (f) 'Statement of Attainment' means a record of recognised learning which, although falling short of an Australian Qualifications Framework qualification, may contribute towards a qualification outcome, either as attainment of competencies within a Training Package, partial completion of a course leading to a qualification, or completion of a nationally accredited short course which may accumulate towards a qualification through Recognition of Prior Learning processes.
- (g) 'Unit of competency' means the specification of knowledge and skill and the application of that knowledge and skill to the standard of performance expected in the workplace. Such units and elements of competence to be achieved by the employee are specified in the Training Package qualification or other relevant qualification.
- (h) 'Streams' or 'Skill Streams' relates to groupings of qualifications relevant to the building, construction and related industries. Qualifications grouped within each specific "Skills Stream" are closely related and relevant to specific aspects of the construction process.

For the purpose of this Award, the following skills streams are relevant:

- General Construction Skills Stream;
 - Off-site Skills stream; and
 - Services Skills stream.
- (i) 'Points' means the points assigned to an employee who successfully completes units of competence within a qualification that may lead to the issue of a Statement of Attainment. One (1) Point is the equivalent of each 10 hours of time nominally assigned from the unit/s or element/s of competence undertaken.
- (j) 'Supervision' within the classification structure relates to the increasing value of the employee to the employer in terms of the degree of autonomy, decision-making, problem-solving application and

responsibility of the employee as an individual or within a Work Area Team environment. This Award recognises two levels of Supervision which are as follows:

- (i) 'General Supervision' applies to a person who:
 - receives general instructions, usually covering only the broader technical aspects of the work;
 - may be subject to progress checks but such checks are usually confined to ensuring that, in broad terms, satisfactory progress is being made;
 - has their assignments reviewed on completion;
 - although technically competent and well experienced there may be occasions on which the person will receive more detailed instructions; and
 - usually operates within a Work Area Team but may have specified areas of autonomy to perform a range of allocated activities and functions.

- (ii) 'Limited Supervision' applies to a person who:
 - receives only limited instructions normally confined to a clear statement of objectives;
 - has their work usually measured in terms of the achievement of stated objectives;
 - is fully competent and very experienced in a technical sense and requires little guidance in the performance of work; and
 - may lead or manage a Work Area Team.

- (k) 'Self-directed Work Area Team' or 'WAT' means a group of employees who work as a team to plan and execute functions relevant to their employers business. Work Area Teams are generally autonomous of direct managerial supervision and perform their tasks in a way that maximises productivity and the utilisation of skills.

- (l) 'New Entrant' means an employee who has never achieved relevant industry experience. Where there is a dispute over the status of an employee in this regard the dispute settling procedures contained within this Award shall be followed. The New Entrant classification does not apply to persons who were employed in the building, construction and related industries prior to the introduction of this new classification structure. Existing employees are subject to the translation arrangements set out in the translation schedule. The purpose of introducing the New Entrant level is not to displace existing employees, but to facilitate the introduction of a career path. Accordingly, an employer shall not purposely "turn over" employees within the New Entrant classification as an alternative to engaging employees on an ongoing basis.

5.1.6 *The Skill Based Career Structure*

Under the new classification structure, an employee's building and construction industry skills are to be formally recognised, industry wide, at all levels. Employees will be eligible to move up the classification structure as they acquire additional accredited skills. Payment and classification will be on the basis of the level of skills required to perform the work of a particular position or job offered by an employer.

The classification structure is designed to facilitate the improvement of the level of skills of the workforce and to provide a career path for all employees. It is drafted to achieve the objectives of the 1989 National Wage Case Principles. Accordingly, each classification level builds upon the previous level so that the value of an employee to the industry and their employer increases as the employee progresses through the structure. Skills are built up in a sequential manner through job-learned skills and structured training.

CLASSIFICATION STRUCTURE

Definition of Classification Levels:

Building Worker Level 1 (BW1)

Description:

	Relativity to tradesperson %
BW1(a): (New Entrant): Upon commencement in the industry	85
BW1(b): After three months in the industry	88

- have successfully completed a relevant structured training program equivalent to the required competency standards.

Skills and duties

An employee at BW1 level performs work to the extent of their skills competence and training. Employees will acquire skills both formal and informal over time and with experience, and will undertake indicative tasks and duties within the scope of skills they possess.

An employee at this level may be part of a self-directed WAT, and may be required to perform a range of duties across the two main skill streams contained within this Award. An employee at this level:

- works from instructions and procedures;

Skill Stream allocation shall be principally determined by the designated core trade of each employee.

5.1.8 *Training:*

- (a) To facilitate the above training objectives an employer shall, through appropriate consultation develop a training program consistent with the business needs of the enterprise relative to:
- the size, structure and scope of the activities of the employer; and
 - the need to develop vocational skills relevant to both the enterprise and the building and construction industry generally through courses conducted by accredited educational institutions and providers.

No employer shall be compelled to fund training that is not required by the enterprise

- (b) Where, as a result of consultation in accordance with clause 5.1.8(a) it is agreed that additional training should be undertaken by the employee, that training may be taken either on or off the job:

Provided that if the training is undertaken during normal working hours the employee concerned shall not suffer any loss of pay. The employer shall not unreasonably withhold access to such training.

5.1.9 *Multi skilling*

Multi-skilling facilitates employees working in non-traditional work areas and requires trades staff to perform duties and use skills that are not a part of their designated core trade. Higher skill levels may be beneficial to business operation and it is acknowledged employees should be remunerated according to the skills they are required to use. The reclassification process provides for wage levels to be determined according to skill levels with higher wages available to employees who are required to have and use the necessary competencies.

Employees who wish to progress through the classification structure may be required to up-skill and or cross-skill to meet the requirements of higher classification levels. Skills may be acquired from a variety of occupational areas. The business needs of the enterprise shall determine the skills required beyond the scope of the existing trade qualifications.

Upon request by the employee, existing trade skills used by an employee and required by the employer that are not part of the employee's designated trade, shall be identified, acknowledged, assessed, and counted towards a reclassification outcome.

Wherever possible registered competencies existing within the AQTF shall be used as a benchmark for the assessment of vocational skills.

5.1.10 *Formal recognition of skills:*

Formal recognition of skills shall occur through either a skills assessment conducted in accordance with RPL principles, or through the acquisition of a statement of attainment issued by a Registered Training Organisation

Where it is identified that trade employees are required to use skills that are beyond the scope of their designated core trade, the employer shall ensure that a skills assessment is conducted to accurately determine the employees' competence in those skills so that the extra skills required can be formally recognised for the purpose of reclassification.

The employer shall be responsible for any costs associated with the skills assessment process. Results of skills assessments shall remain the property of the employee. Employees shall provide the results of skills assessments to the employer as required.

5.1.11 *Re-classification*

In seeking upward reclassification, employees will be required to demonstrate that they meet the full requirements of the specific skill level in accordance with the criteria outlined in this Award and are required to carry out the duties at that level.

The employer may instruct an employee not to exercise competencies that they possess. In such a case, an employee cannot seek reclassification for possessing such competencies.

5.1.12 *Progression through the trade classification structure*

Upward progression for tradespersons through the classification structure will be facilitated through the process of re-classification. Employees will be provided the opportunity to be re-classified as they develop skills and appropriate to the requirements of the employer.

Progression through the classification structure can be achieved by the following processes:

- (b) Acquisition of 12 "points" from outside their own trade at the Certificate 3 level or higher, in addition to the requirements of the employees' current level. The employee shall advance one level for each 12 points acquired up to BT3 level.
- (c) Acquisition of 12 "points" of specialist post trade competencies in the employees own trade at AQF level 4 or higher (including specific licenses and endorsements for plumbers provided in the classification structure), in addition to the requirements of the employees' current level. This is equivalent to 120 nominal

hours of accredited training. The acquisition of 12 points will result in the employee advancing one level higher than their current classification level. The employee shall advance one level for each 12 points acquired up to BT3 level.

- (d) The assessed competencies must be relevant to the work being performed and required by the employer.
- (e) Competencies may be drawn from other trade qualifications.

5.1.13 Classification Disputes Procedure

It is recognised that from time to time disputes may arise as to the proper classification of a position or job to be filled by an employee. In the event that a dispute as to the proper classification or reclassification of a position or job does arise the dispute settlement procedure contained in clause 2.5 of the Award shall apply:

Provided that the parties to the dispute may call upon people/organisations with technical/educational expertise (such as CTQ) and any other persons they believe would assist in the resolution of the dispute.

In any case, in determining the appropriate classification of a position or job to be filled by an employee, an employer will pay full regard to:

- the nature and skill requirements of the position to be filled;
- the skill level and certification of the employee;
- the experience and qualifications of the employee;
- relevant indicative tasks nominated in this new structure; and/or

Upon translation to the new classification structure existing employees will be regarded as satisfying the requirements of the new skill level to which they translate.

No employee shall unreasonably refuse to undertake training, provided by the employer in paid work time, which would enable the employee to fulfil the substantive requirements of the skill level to which they have translated as a result of the introduction of the new structure.
