PART 2 - FLEXIBILITY

2.1 Enterprise flexibility

2.1.1 As part of a process of improvement in productivity and efficiency, discussion should take place at each enterprise to provide more flexible working arrangements, improvement in the quality of working life,

enhancement of skills, training and job satisfaction and to encourage consultative mechanisms across the workplace.

2.1.2 The consultative processes established in an enterprise in accordance with clause 2.1 may provide an appropriate mechanism for consideration of matters relevant to clause 2.1.1 Union delegates at the place of work may be involved in such discussions.

2.1.3 Any proposed genuine agreement reached between an employer and employee/s in any enterprise is contingent upon the agreement being submitted to the Commission in accordance with Chapter 6 of the Act and is to have no force or effect until approval is given.

2.2 Localised agreements

Notwithstanding any other provisions in this Award, the Association may make a localised agreement with a respondent employer for a provision or provisions which differ from the provisions of the award so as to create agreements which incorporate salaries and conditions that alter or go beyond that which is provided for in the Award. The agreement is to be in writing and duly signed by the employer, employee and the Association and its provisions in so far as they are inconsistent with the Award will prevail.

PART 3 - COMMUNICATION, CONSULTATION AND DISPUTE RESOLUTION

3.1 Employee consultation

The employer shall ensure, in the interests of improved efficiency and productivity, that there are procedures to ensure that employee Professional Engineers are consulted on all matters pertaining to the employment of Professional Engineers and all matters which may affect the content or methods of professional engineering work.

3.2 Grievance and dispute settling procedure

The matters to be dealt with in this procedure shall include all grievances or disputes between an employee and an employer in respect to any industrial matter and all other matters that the parties agree on and are specified herein. Such procedures shall apply to a single employee or to any number of employees.

3.2.1 In the event that an employee having a grievance or dispute the employee shall in the first instance attempt to resolve the matter with the immediate supervisor, who shall respond to such request as soon as reasonably practicable under the circumstances. Where the dispute concerns alleged actions of the immediate supervisor the employee/s may bypass this level in the procedure.

3.2.2 If the grievance or dispute is not resolved under clause 3.2.1, the employee or the employee's representative may refer the matter to the next higher level of management for discussion. Such discussion should, if possible, take place within 24 hours after the request by the employee or the employee's representative.

3.2.3 If the grievance involves allegations of unlawful discrimination by a supervisor the employee may commence the grievance resolution process by reporting the allegations to the next level of management beyond that of the supervisor concerned. If there is no level of management beyond that involved in the allegation the employee may proceed directly to the process outlined at clause 3.2.5.

3.2.4 If the grievance or dispute is still unresolved after discussions mentioned in clause 3.2.2, the matter shall, in the case of a member of the Association, be reported to the relevant officer of the Association and the senior management of the employer or the employer's nominated industrial representative. An employee who is not a member of the Association may report the grievance or dispute to senior management or the nominated industrial representative. This should occur as soon as it is evident that discussions under clause 3.2.2 will not result in resolution of the dispute.

3.2.5 If, after discussion between the parties, or their nominees mentioned in clause 3.2.4, the dispute remains unresolved after the parties have genuinely attempted to achieve a settlement thereof, then notification of the existence of the dispute is to be given to the Commission in accordance with the provisions of the Act.

3.2.6 Whilst all of the above procedure is being followed, normal work shall continue except in the case of a genuine safety issue.

3.2.7 The *status quo* existing before the emergence of the grievance or dispute is to continue whilst the above procedure is being followed.

3.2.8 All parties to the dispute shall give due consideration to matters raised or any suggestion or recommendation made by the Commission with a view to the prompt settlement of the dispute.

- 3.2.9 Any Order or Decision of the Commission (subject to the parties right of appeal under the Act) will be final and binding on all parties to the dispute.
- 3.2.10 Discussions at any stage of the procedure shall not be unreasonably delayed by any party, subject to acceptance that some matters may be of such complexity or importance that it may take a reasonable period of time for the appropriate response to be made. If genuine discussions are unreasonably delayed or hindered, it shall be open to any party to give notification of the dispute in accordance with the provisions of the Act.

PART 4 - EMPLOYER AND EMPLOYEES' DUTIES, EMPLOYMENT RELATIONSHIP AND RELATED ARRANGEMENTS

4.4 Anti-discrimination

4.4.1 It is the intention of the parties to this Award to prevent and eliminate discrimination as defined by the *Anti-Discrimination Act 1991* and the *Industrial Relations Act 1999* as amended from time to time, which includes:

- (a) discrimination on the basis of sex, marital status, family responsibilities, pregnancy, parental status, age, race, impairment, religion, political belief or activity, trade union activity, lawful sexual activity and association with, or relation to, a person identified on the basis of the above attributes;

Provided that where this Award makes provision for alteration of any of the matters referred to herein an alteration shall be deemed not to have significant effect.

4.6.2 *Employer's duty to discuss change*

- (a) The employer shall discuss with the employees affected and the Association, *inter alia*, the introduction of the changes referred to, the effects the changes are likely to have on employees and measures to avert or mitigate the adverse effects of such changes on employees.
- (b) The discussions shall commence as early as practicable after a definite decision has been made by the employer to make the changes referred to in clause 4.6.1.
- (c) For the purpose of such discussion, the employer shall provide in writing to the employees concerned and the Association, all relevant information about the changes including the nature of the changes proposed, the expected effects of the changes on employees, and any other matters likely to affect employees:

Provided that any employer shall not be required to disclose confidential information, the disclosure of which would be inimical to the employer's interests.

4.7 Redundancy

4.7.1 *Discussions before terminations*

- (a) Where an employer has made a definite decision that the employer no longer wishes the job the employee has been doing to be done by anyone, and this is not due to the ordinary and customary turnover of labour, and that decision may lead to termination of employment, the employer shall hold discussions with the employees directly affected and where relevant, their Association.
- (b) The discussions shall take place as soon as it is practicable after the employer has made a definite decision which will invoke clause 4.7.1, and shall cover *inter alia*, the reasons for the proposed terminations, measures to avoid or minimise the terminations and measures to avert or mitigate the adverse effects of any terminations of the employees concerned.
- (c) For the purpose of the discussion the employer shall, as soon as practicable, provide in writing to the employees concerned and their Association, all relevant information about the proposed terminations including the reasons for the proposed terminations, the number and categories of employees likely to be affected, the number of workers normally employed and the period over which the terminations are likely to be carried out:

4.7.2 *Transfer to lower paid duties*

Where an employee is transferred to other duties for reasons set out in clause 4.7.1, the employee shall be entitled to the same period of notice of transfer the employee would have been entitled to pursuant to clause 4.5.2 if the employment had been terminated, and the employer may, at the employer's option, make payment in lieu thereof of an amount equal to the difference between the former ordinary time rate of pay and the new lower ordinary time rate of pay for the number of weeks of notice still owing.

4.7.3 *Transmission of business*

- (a) Where a business is, whether before or after the date of this Award, transmitted from an employer (called the "transmittor") to another employer (called the "transmittee"), and an employee who at the time of such transmission was an employee of the transmittor of the business, becomes an employee of the transmittee:
- (i) the continuity of the employment of the employee shall be deemed not to have been broken by reason of such transmission; and
 - (ii) the period of employment which the employee has had with the transmittor or any prior transmittor shall be deemed to be service of the employee with the transmittee.
- (b) In clause 4.7.3, "business" includes trade, process, business or occupation and includes part of any such business and "transmission" includes transfer, conveyance, assignment or succession whether by agreement or by operation of law and "transmitted" has a corresponding meaning.

Where a decision has been made to terminate employees in the circumstances outlined in clause 4.7.1 the employer shall notify Centrelink thereof as soon as possible giving relevant information including a written statement of the reasons for the terminations, the number and categories of the employees likely to be affected and the period over which the terminations are intended to be carried out.

4.7.6 *Severance pay*

In addition to the period of notice prescribed for ordinary termination in clause 4.5.2, and subject to further order of the Commission, an employee whose employment is terminated for reasons set out in clause 4.7.1 shall be entitled to the following amounts of severance pay:

Period of Continuous Service	Severance Pay
1 year or less	nil
1 year and up to the completion of 2 years	4 weeks' pay
2 years and up to the completion of 3 years	6 weeks' pay
3 years and up to the completion of 4 years	7 weeks' pay
4 years and over	8 weeks' pay

"Weeks' pay" means the ordinary time rate of pay for the employee concerned.

4.7.7 *Superannuation benefits*

Subject to further order of the Commission where an employee who is terminated receives a benefit from a superannuation scheme, such employee shall only receive under clause 4.7.6 the difference between the severance pay specified in that clause and the amount of the superannuation benefit such employee receives which is attributable to employer contributions only. If this superannuation benefit is greater than the amount due under clause 4.7.6 then the employee shall receive no payment under that clause.

4.7.8 *Employee leaving during notice*

An employee whose employment is terminated for reasons set out in clause 4.7.1 may terminate such employment during the period of notice specified in clause 4.5.2, and, if so, shall be entitled to the same benefits and payments under clause 4.7 had such employee remained with the employer until the expiry of such notice:

Provided that in such circumstances the employee shall not be entitled to payment in lieu of notice.

4.7.9 *Alternative employment*

4.7.10 *Employees with less than one year's service*

Clause 4.7 shall not apply to employees with less than one year's continuous service and the general obligation on employers should be no more than to give relevant employees an indication of the impending redundancy at the first reasonable opportunity, and to take such steps as may be reasonable to facilitate the obtaining by the employees of suitable alternative employment.

4.7.11 *Employees exempted*

Clause 4.7 shall not apply:

- (a) where employment is terminated as a consequence of misconduct on the part of the employee;
- (b) to employees engaged for a specific period of time or for a specific task or tasks; or

An employer in a particular redundancy case may make application to the Commission to have the general severance pay prescription varied on the basis of the employer's incapacity to pay.

4.8 Continuity of service - transfer of calling

In cases where a transfer of calling occurs, continuity of service should be determined in accordance with sections 67-71 of the Act as amended from time to time.

PART 5 - WAGES AND WAGE RELATED MATTERS

5.1 Definitions of classifications

5.1.1 *Level 1 Professional Engineer*

- (a) The Graduate Engineer commencement level. The engineer undertakes initial professional engineering tasks of limited scope and complexity, such as minor phases of broader assignments, in office, plant, field or laboratory work. As the Engineer progresses through this level they may perform work which is more novel and complex.
- (b) Classification level definition - Under supervision from higher level Professional Engineers as to method of approach and requirements, the Professional Engineer performs normal professional engineering work and exercises individual judgement and initiative in the application of engineering principles, techniques and methods.

In assisting more senior Professional Engineers by carrying out tasks requiring accuracy and adherence to prescribed methods of engineering analysis, design or computation, the Engineer draws upon advanced techniques and methods learned during and after the undergraduate course.

Training, development, and experience using a variety of standard engineering methods and procedures, enable the Professional Engineer to develop increasing professional judgement and apply it progressively to more difficult tasks. As the Professional Engineer progresses through the level, the need for technical supervision gradually diminishes until greater professional autonomy is reached.

Decisions are related to tasks performed, relying upon precedent or defined procedure for guidance. Recommendations are related to solution of problems in connection to the tasks performed.

As the Engineer progresses through this level, work is reviewed by higher level Professional Engineers for validity, adequacy, methods and procedures. With professional development and experience, work receives less review, and the Professional Engineer progressively exercises more individual judgement until the level of competence at level 2 is achieved.

The Professional Engineer may assign and check work of technical staff assigned to work on a common project.

5.1.2 *Level 2 Professional Engineer*

- (a) Classification Level Definition - Following development through Level 1 is an Experienced Engineer who plans and conducts professional engineering work without detailed supervision, but with guidance on unusual feature and who is usually engaged on more responsible engineering assignments requiring substantial professional engineering.

5.1.3 *Level 3 Professional Engineer*

- (a) Classification Level Definition - A Professional Engineer performing duties requiring the application of mature professional engineering knowledge. With scope for individual accomplishment and co-ordination of more difficult assignments, the Professional Engineer deals with problems for which it is necessary to modify established guides and devise new approaches.

The Professional Engineer may make some original contribution or apply new professional engineering approaches and techniques to the design or development of equipment or special aspects of products, facilities and buildings.

Recommendations may be reviewed for soundness of judgement but are usually regarded as technically accurate and feasible. The Professional Engineer makes responsible decisions on matters assigned, including the establishment of professional engineering standards and procedures, consults, recommends and advises in speciality engineering areas.

Work is carried out within broad guidelines requiring conformity with overall objectives, relative priorities and necessary co-operation with other units. Informed professional engineering guidance may be available.

The Professional Engineer outlines and assigns work, reviews it for technical accuracy and adequacy, and may plan, direct, co-ordinate and supervise the work of other professional and technical staff.

5.1.4 *Level 4 Professional Engineer*

- (a) Classification Level Definition - A Professional Engineer required to perform Professional Engineer work involving considerable independence in approach, demanding a considerable degree of originality, ingenuity and judgement, and knowledge of more than one field, or expertise (for example, acts as their organisations technical reference authority) in a particular field of professional engineering. The Professional Engineer:

- initiates or participates in short or long-range planning and makes independent decisions on engineering policies and procedures within an overall program;
- gives technical advice to management and operating departments;
- may take detailed technical responsibility for product development and provision of specialised engineering systems, facilities and functions;
- co-ordinates work programs; and directs or advises on use of equipment and material.

The Professional Engineer makes responsible decisions not usually subject to technical review, decides courses of action necessary to expedite the successful accomplishment of assigned projects, and may make recommendations involving large sums or long-range objectives.

Duties are assigned only in terms of broad objectives, and are reviewed for policy, soundness of approach, accomplishment and general effectiveness.

The Professional Engineer supervises a group or groups including Professional Engineers and other staff, or exercises authority and technical control over a group of professional staff, in both instances engaged in complex engineering applications.

5.1.5 *Level 5 Professional Engineer*

Classification Level Definition - A Professional Engineer required to perform professional engineering work involving a high degree of independence in approach, comprehensive knowledge and formulation of policy and very significant professional decisions and advice which carry the level beyond Engineer, Level 4. Should have knowledge of 2 or more engineering fields or areas of expertise.

Advice is given to senior levels to enable decisions to be made which affect very significant programs. Would influence policy and normally formulate it.

5.2 Wage rates

5.2.1 The minimum annual salaries payable for the performance of Professional Engineering Duties as defined are:

<i>Responsibility Level</i>	<i>Salary Per Annum</i> \$
Level 1	39,484
(as defined	40,545
in clause	42,004
5.2.2)	43,394
	45,333
Level 2	47,170
Level 3	50,278
Level 4	54,960
Level 5	62,585

NOTE: The rates of pay in this Award are intended to include the arbitrated wage adjustment payable under the 1 September 2010 Declaration of General Ruling and earlier Safety Net Adjustments and arbitrated wage adjustments. This arbitrated wage adjustment may be offset against any equivalent amount in rates of pay received by employees whose wages and conditions of employment are regulated by this Award which are above the wage rates prescribed in the Award. Such payments include wages payable pursuant to certified agreements, currently operating enterprise flexibility agreements, Queensland workplace agreements, award amendments to give effect to enterprise agreements and overaward arrangements. Absorption which is contrary to the terms of an agreement is not required.

Increases made under previous State Wage Cases or under the current Statement of Principles, excepting those resulting from enterprise agreements, are not to be used to offset arbitrated wage adjustments.

5.2.2 It is expected that a Level 1 or Graduate Engineer will advance to Level 2 or Experienced Engineer following the progressive acquisition of skills and competence and such employees competence and salary will be reviewed regularly during this period:

Provided the engineer meets reasonable expectations as to the acquisition of additional skills and experience, the engineer will be advanced to the next higher salary point in level 1 no less frequently than annually.

5.3 Payment of salary

5.3.1 Subject to clause 5.3, all salaries and wages shall be paid at least once each fortnight. To calculate the amount payable fortnightly, the annual salary is divided by 26. Payment shall be in money or by electronic funds transfer unless other mutually suitable arrangements are made. Payment shall not be by electronic funds transfer unless the employee has reasonably convenient access to suitable banking facilities.

5.3.2 Where salaries have been paid weekly, this shall continue to be the frequency of payment (in which case the weekly payment is annual salary divided by 52) unless otherwise agreed between the employer and the Association.

5.3.3 Where a Professional Engineer so requests, the employer may, at the employer's discretion, pay salary by the calendar month, at the rate of 1/12th of annual salary per month.

Provided that monthly payments are made not later than the tenth day of the corresponding calendar month.

5.4 Allowances

5.5 Superannuation

5.5.1 In addition to the rates of pay prescribed by this Award, eligible employees as defined herein, will be entitled to Occupational Superannuation Benefits, subject to clause 5.5.

5.5.2 Superannuation is governed by legislation including the *Superannuation Guarantee (Administration) Act 1992*, the *Superannuation Guarantee Charge Act 1992*, the *Superannuation Industry (Supervision) Act 1993* and the *Superannuation (Resolution of Complaints) Act 1993*.

Employers have an obligation to make occupational superannuation contributions on behalf of each eligible employee according to that legislation as varied from time to time. Such contributions will be paid by the employer into an "approved fund" or such other fund approved by a majority of employees regularly at least once each calendar month or in accordance with the requirements of the approved fund's trust deed.

An "Approved Fund" will be:

- (a) The Professional Engineers Superannuation Fund;
- (b) Sunsuper;

Unless otherwise prescribed by legislation, the choice of funds will be made by the majority of the employer's employees and such fund will be one that is a complying fund in terms of the governing legislation.

Contributions prescribed by legislation vary from time to time. - 5.5.3 "*Ordinary time earnings*" means the ordinary time rate of pay the employee receives for ordinary hours of work including shift loading and supervisory allowance where applicable. Ordinary time earning will not include overtime, disability allowances, penalty rates, fares and travelling time allowances or any other extraneous payment of a like nature.

- 5.5.5 The employer will make the employee aware of their entitlements under this Award and offer the employee the opportunity to become a member of the appropriate fund in accordance with clause 5.5. An employee will be required to properly complete the necessary application forms to become a member of the appropriate fund in order to be entitled to the contributions prescribed in clause 5.5.
- 5.5.6 In any case where the employee refuses to become a member of the relevant fund and the employer therefore does not make the contributions in accordance with clause 5.5.2 on behalf of that employee, the employer will notify in writing the trustee of the relevant fund of such circumstances.
- 5.5.7 *Lack of compliance* - Subject to the provisions of the Act should it be established that the employer has failed to comply with the requirements of clause 5.5 in respect of any employee/s, such employer will be liable to make the appropriate contributions retrospectively to the date of eligibility of the employee/s, plus an amount equivalent to the guaranteed rate of return those contributions would have attracted in the approved occupational superannuation

scheme or fund had they been paid on the due dates. Beyond that liability, the employer will not be liable for any other payments as a result of such non-compliance.

5.5.8 An employee may make contributions to the fund in addition to those made by the employer.

5.5.9 The employer and employee may agree to have the employee's superannuation contributions made to an approved superannuation fund, other than those specified in this Award.

- (i) Any such agreement must be recorded in writing and signed by the employer and employee and kept on the employee's file.
- (ii) A person must not coerce someone else to make an agreement.
- (iii) Such agreement, where made, will continue until such time as the employer and employee agree otherwise, and shall be made available to relevant persons for the purposes of sections 371 and 373 (inspection of time and wage records) of the Act.
